

Masking Discs RoHS and REACH Compliant

Applications: Anodizing, Electronic Assembly, General Purpose Masking, Powder Coating, Solar Panel Assembly, Wet Coating Operations

Bertech Part Number	Description	Weight (lbs.)
BPD-1/4	1/4 inches General Purpose Blue Masking Discs, 2000 Discs/Roll	0.30
BPD-3/8	3/8 inches General Purpose Blue Masking Discs, 2000 Discs/Roll	0.35
BPD-1/2	1/2 inches General Purpose Blue Masking Discs, 2000 Discs/Roll	0.40
BPD-3/4	3/4 inches General Purpose Blue Masking Discs, 1000 Discs/Roll	0.45
BPD-1	1 inches General Purpose Blue Masking Discs, 500 Discs/Roll	0.50
BPD-2	2 inches General Purpose Blue Masking Discs, 250 Discs/Roll	0.70

Blue Masking Discs

Blue Masking Discs are made of 1 mil thick polyester film and 2 mil thick silicone adhesive. They are used for general purpose masking in powder coating and electronic industries. They can be removed cleanly without leaving any residue. These Blue Masking Discs are available in widths of up to 6 inches in diameter.

Custom sizes are available upon request.

Part Number	BPD series	Peel Strength	1000 ± 100 gf/in.
Material	Polyester	Tensile Strength	>7 kg./in.
Total Thickness	3 Mil ±10%	Elongation	> 70%
Adhesive	Silicone		
Color	Blue	Heat Resistance	350° F
Standards	D3330, D3652, D3759	UNSPSC Code	60121135
